## OUR MARKETING POLICY

Our company's history dates back to 1926, when we first started as a wholesale upholstery supply jobber and distributor committed wholly to the furniture, automotive, R.V., marine and aircraft upholstery industry.

Our commitment remains the same today.

Our customers expect only the very best in quality and service. Since we are committed to them, we render it without compromise.

In addition to the items of supplies listed in this catalog, Gulf Fabrics, Inc. sells a complete line of upholstery fabrics and vinyls manufactured by the finest companies in the industry. Samples of which may be obtained upon request.

### **TERMS:**

COD on all shipments- FOB Tampa.

Net 10 EOM Open with prior application and approval. Past due open A/C balances subject to 1 1/2% interest per month- annual rate 18%. Out of state accounts- COD-cash or Visa/MasterCard.

### **RETURN MERCHANDISE:**

Subject to a minimum 25% handling charge plus freight charges. All returns must have prior approval.

### **CHECKS:**

Acceptable with prior application and our approval. All returned checks will be assessed a minimum \$20 charge.

### **SHORTAGES OR DAMAGE:**

Claim must be made immediately upon receipt of merchandise. Examine all merchandise carefully before cutting or putting into use. No allowance will be made after cutting or use. Any damage to packages during shipping should be brought to our attention. The shipping container must be retained in order to make claim, in most instances UPS.

### **SERVICE:**

Most orders shipped within 24 hours of receipt. Shipments Via UPS unless alternate carrier is specified. Call to inquire as to when a salesman or our delivery truck will be in your area for possible delivery.

### **PRICES:**

Subject to change without notice- Please call for current prices.

*We look forward to providing you with quality service and merchandise.*

**NOTES**

# ULTRALEATHER™

## Superior to Vinyl ULTRA SURFACES-ULTRA RELEVANT

Polyurethane (PU) and polyvinyl chloride (PVC) might sound similar, but they're not.

Polyvinyl chloride is environmentally indestructible and can release hydrochloric acid and other toxic compounds when burned. In addition, vinyl also contains a high level of VOC's (volatile organic compounds) that negatively impact indoor air quality (IAQ), as these contaminants cause environmental and health risks. Vinyl is listed on the EPA's warning list of materials that contribute towards indoor air pollution.

Polyvinyl chloride contains Phthalates, harmful plasticizers used to soften the texture and appearance of vinyl. Phthalates have been known to cause human health risks such as disrupting hormone activity, and have been listed on the Environmental Protection Agency (EPA) list of at-risk chemicals.

Please visit the Healthy Building Network website for more information on the PVC-free movement.

### Animal-Free/Cruelty-Free Products

Of importance to Ultrafabrics is the preservation of ecosystems and the creatures that rely on and reside in them.

Our products are a cruelty-free, socially responsible, healthy alternative to leather and animal hides.

Ultrafabrics brand products often outperform leather in abrasion test results, while still maintaining a supple aesthetic finish.

As a result of its substantially lighter weight, Ultraleather reduces fuel consumption, driving transportation costs down. (see chart below)

**Ultraleather/Brisa:**

### Less Than Half the Weight of Genuine Leather

	Ultraleather	Genuine Leather
Weight (oz / square yard)	9.3	25.0
Weight (oz / lineal yard)	13.5	37.54

### Frequently Asked Questions

**Q: What is the difference between Ultrafabrics products and Vinyl?**

**A:** Ultrafabrics brand fabrics are composed of polyurethane that is non-toxic, low VOCs and compliant with industry standards for indoor air quality. Ultrafabrics products do not contain any volatile plasticizers and stabilizers found in vinyl.

### What are the benefits of being PVC free?

**Q:** Polyvinyl chloride (PVC) is environmentally indestructible vinyl and can release hydrochloric acid and other toxic compounds when burned. In addition, vinyl also contains a high level of VOC's (volatile organic compounds) that negatively impact indoor air quality (IAQ). These contaminants cause environmental and health risks. Vinyl is listed on the EPA's warning list of materials that contribute towards indoor air pollution. What differentiates PVC from the other vinyls is the addition of the chlorine molecule (chloride "C" in PVC). Chlorine is the source of many environmental health concerns with PVC, including the generation of dioxin, a highly carcinogenic chemical produced in both the manufacturing and disposal of PVC. Due to its persistent and bioaccumulative nature, chlorine increases in concentration as it moves up the food chain to humans, thus being categorized as a persistent organic pollutants (POP's). The international treaty, The Stockholm Convention, was created to target POPs, and now prioritizes the elimination of processes that produce dioxins.

### Q: What are the environmental benefits of Ultraleather than genuine leather?

**A:** Leather production and the tanning process utilizes several toxic chemicals and produces pollution in our external environment and indoor air environments, as well as significant natural resource depletion. Tanneries have been known to release dangerous pollutants such as ammonia, mercury, lead and chromium in the form of solid waste.

### Q: What part of your materials is recycled?

**A:** Approximately 99% of our solvents are recycled in the manufacturing process.

### LEED™ CREDITS

Ultrafabrics brand textiles can help clients achieve LEED™ (Leadership for Energy and Environmental Design) certification in the area of Existing Buildings.

Credits for our product line fall under the MR Credit 4.0 Sustainable Cleaning Products and Materials.\*

All of Ultrafabrics' textiles have cleaning codes W or WS and can be cleaned using low environmental impact cleaning fluids, and many using a soap and water solution.

### Ultraleather Collection

The Ultraleather™ Collection offers beautiful, luxurious, soft surfaces with exceptional durability. Formulated with an advanced strengthening technology, Ultraleather is an intelligent alternative for applications that require the look and styling of leather. This versatile collection brings reliability and function to a timeless look.

### Ultraleather™

#### Ultraleather Collection

Ultraleather™, the original surface in the Ultraleather Collection, is perfect for situations where you want the look and feel of leather, but need a more durable and practical alternative. Formulated with high-tech strengthening components for longevity, its exceptional durability and effortless cleaning make Ultraleather the ideal Ultra Surface for high wear applications with the benefit of a soft and supple hand.

## Promessa

### Ultraleather Collection

Promessa, part of the Ultraleather™ Collection, offers a luxurious, innovative two-toned texture naturally bonded with **antimicrobial** protection. This outstanding combination makes Promessa a versatile option for a wide variety of high wear applications.

## Pearlized

### Ultraleather Collection

Part of the Ultraleather™ Collection, Pearlized delights your senses with a stylish pearl-like shimmer and liquid-like touch. Add exceptional durability to the mix, and you've got a surface that's a perfect match for active lifestyles that require supremely comfortable moments to relax and recharge.

## Ostrich

### Ultraleather Collection

Ostrich, part of the Ultraleather Collection, takes its inspiration from the world of nature. Its distinctive patterns and textures, combined with strength and durability, make Ostrich ideal for high wear applications where a sophisticated, timeless appeal is a natural choice.

## Buffalino

### Ultraleather Collection

Buffalino, part of the Ultraleather Collection, takes its inspiration from the world of nature. Its distinctive patterns and textures, combined with strength and durability, make Buffalino ideal for high wear applications where a sophisticated, timeless appeal is a natural choice.

## Pony

### Ultraleather Collection

Pony, part of the Ultraleather Collection, takes its inspiration from the world of nature. Its distinctive pony hair pattern and texture, combined with strength and durability, make Pony ideal for high wear applications where a sophisticated, timeless appeal is a natural choice.

## Ultra Lifestyle Collection

The Ultra Lifestyle Collection brings elegant design and practicality to every aspect of your life. This classic collection embraces your creativity with intriguing textures and finishes, together with the strength and durability that only Ultra Surfaces can deliver. Expressive and versatile, this collection offers options that breathe for comfort as well as innovative water-repellent technology for outdoor living applications.

## Brisa®

### Ultra Lifestyle Collection

Brisa®, part of the Ultra Lifestyle Collection, is one of our most popular fabrics. It features the first polyurethane surface with a unique ventilation system that actually *breathes*. The result of this technological breakthrough is exceptional comfort that becomes a most welcome part of your life.

## Brisa® Distressed

### Ultra Lifestyle Collection

Brisa® Distressed, part of the Ultra Lifestyle Collection, is one of our most popular fabrics. It features the first polyurethane surface with a unique ventilation system that actually *breathes*.

## Brisa® Outdoor

### Ultra Lifestyle Collection

Brisa® Outdoor, part of the Ultra Lifestyle Collection, gives you a **breathable** polyurethane surface engineered for solar endurance. It's soft, supple hand, along with its unique ability to **stay cool** and **resist fading** over extended periods of sunlight, make this the perfect choice for applications anywhere under the sun.

## Brisa® Distressed Outdoor

### Ultra Lifestyle Collection

Brisa® Distressed Outdoor, part of the Ultra Lifestyle surface engineered for solar endurance. It's soft, supple hand, along with its unique ability to **stay cool** and **resist fading** over extended periods of sunlight, make this the perfect choice for applications anywhere under the sun.

## Promessa Outdoor

### Ultra Lifestyle Collection

Promessa Outdoor, part of the Ultra Lifestyle Collection, gives you a polyurethane surface engineered for solar endurance. It's soft, supple hand, along with its unique ability to **stay cool** and **resist fading** over extended periods of sunlight, make this the perfect choice for applications anywhere under the sun.

## Pony Outdoor

### Ultra Lifestyle Collection

Pony Outdoor, part of the Ultra Lifestyle Collection, gives you a **breathable** polyurethane surface engineered for solar endurance. It's soft, supple hand, along with its unique ability to **stay cool** and **resist fading** over extended periods of sunlight, make this the perfect choice for applications anywhere under the sun.

## Ultraleather™ Outdoor

### Ultra Lifestyle Collection

Ultraleather™ Outdoor, part of the Ultra Lifestyle Collection, gives you a polyurethane surface engineered for solar endurance. It's soft, supple hand, along with its unique ability to **stay cool** and **resist fading** over extended periods of sunlight, make this the perfect choice for applications anywhere under the sun.

## Ultra Innovation Collection

The Ultra Innovation Collection lives up to its name by giving you high-tech surfaces with a high-design edge. Surfaces that combine the ultimate use of state-of-the-art technology—the likes of which you won't find anywhere else—with an array of inventive design options that allow you to stay on top of the trends, and maybe even set a few of your own. Extremely durable and exceptionally soft, these innovative Ultra Surfaces will soon become such a part of your life, you'll wonder how you ever lived without them.

## Hammered

### Ultra Innovation Collection

Part of the Ultra Innovation Collection, Hammered takes contemporary design to a new level. Giving you the exceptional combination of stylish good looks and durability, Hammered stands up to your active lifestyle. Its bulleted accent texture opens a world of possibilities to integrate unique design and appeal into your everyday life.

## Raffia

### Ultra Innovation Collection

Part of the Ultra Innovation Collection, Raffia takes contemporary design to a new level. Giving you the exceptional combination of stylish good looks and durability, Raffia stands up to your active lifestyle. Its woven grain pattern opens a world of possibilities to integrate unique design and texture into your everyday life.

## Fusion

### Ultra Innovation Collection

Fusion, part of the Ultra Innovation Collection, is every bit as revolutionary as it looks. A smooth, matte grain, both modern and spare, this surface takes on a fresh look in any environment. Naturally bonded with **silver ion antimicrobial** technology, this outstanding combination makes Fusion a versatile option for a wide variety of high wear applications. Designed to tailor easily, allowing for an array of design choices, Fusion will endure in any setting.

## Patine

### Ultra Innovation Collection

Patine, part of the Ultra Innovation Collection, brings a high sheen to your days and nights. Uncommonly **smooth** to the touch and remarkably **durable**, Patine enhances every minute of your life with its exquisite, polished appeal.

## Metro tech

### Ultra Innovation Collection

Metro tech's surface, part of the Ultra Innovation Collection, is designed with a special finish technology that gives an understated look and feel. It is designed to tailor easily - making it's luxurious matte finish a perfect surface for modern, contemporary designs. Metro tech's cool, understated neutrals evoke sophisticated comfort and harmony.

## Eco tech

### New Product

New to the *Ultra Innovation Collection*, **Eco tech** features an innovative surface with a high design edge. Created using a special finish technology based upon the matte appeal of Ultra tech, Eco tech takes on a classic pebbled styling. It combines exceptional softness with extreme durability synonymous with Ultrafabrics quality. The cool, understated neutrals which comprise the Eco tech color palette will liven up any home, office or hospitality space, making it the perfect surface for a functional yet stylish aesthetic.

## Dolce - The ultimate solution in urethane upholstery.

Formulated with a polycarbonate resin system, backed up by a seven-year hydrolytic rating and a stain-resistant high-performance wear surface (400,000 double rubs), Dolce is the ideal solution for the most demanding seating applications. Exceptional durability, superior field performance and SILVERGUARD protection are not the only benefits you will enjoy from selecting Dolce for your next upholstery project. You can choose from 27 sophisticated yet versatile color ways to fit your lifestyle and experience firsthand the remarkable touch and feel of this lambskin-like leather upholstery sure to bring comfort and elegance to any room setting.

## Ultrasuede® for Interiors

### Inherently Beautiful, Responsibly Engineered.

Nothing short of a miracle describes the value, versatility, and the extraordinary beauty of Ultrasuede®. Those who love their homes and those who make their livings designing beautiful things for the home both agree—Ultrasuede® is the preferred choice for today's interior design decisions. It is the ultimate premium fabric to stand up to all the challenges of real life. Ultrasuede® is unsurpassed in performance, beauty and, perhaps most important, ease of care. It is both child- and pet-friendly and will continue to look and feel luxuriously elegant for years to come. No wonder so many manufacturers recommend Ultrasuede® for their most popular residential furniture designs.

And nothing gives shape to great design like Ultrasuede®, the best ultra-microfiber available today. It meets the most demanding contract and commercial specifications satisfying designers' concepts from the classic to the most innovative and cutting-edge. As a wallcovering Ultrasuede® adds both a visual and a tactile dimension unmatched by any other substrate.

Ultrasuede® Ambiance features ultra-microfiber made with 100% recycled polyester

A soft, plush, suede hand

Soothing to the touch in any climate

Excellent colorfastness

Resists sagging, crocking, pilling and shrinking

Highly abrasion-resistant—exceeds 200,000 Wyzenbeek double-rubs

Spot cleans and is easily washable

Unsurpassed range of today's most sought-after colors

Animal friendly

## Alcantara® Automotive Suede

Leading auto manufacturers the likes of Audi, BMW, Mercedes, Porsche, Aston Martin, Jaguar, Lexus, Maserati, Lexus and Volvo have all come to rely on Alcantara's® to personalized their cars interiors.

Seats, trim/door panels, dashboards, consoles, door post/pillars, headliners and package trays can all be covered in elegant Alcantara®, taking full advantage of its unique physical properties.

**Alcantara® Cover** for seating is the upholstery option most in line with the latest outfitting trends and is particularly adapted to softer, rounded lines. The **Cover** fabric possesses all the physical and mechanical properties required. Currently available in 26 color in solid and in two different perforations, square and round, in four colors.

**Alcantara® Pannel** (Not recommend for seating applications) is particularly pliable and easily adapts to a variety of uses. Ideal for curved or raised surfaces such a molded trim panels, headliners and dashboards.

**ELEMENT-** Outdoor/Indoor Polyurethane that resists sunlight, salt and chlorinated water, suntan lotion and stains. Element stays comfortable to the touch, even in the hot sun.

**AURA-** Elegant and sophisticated Polyurethane with a top grain leather look

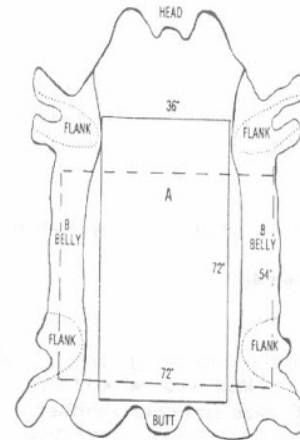

**CORK-** A Polyurethane with the organic look and texture of natural cork.

**BARON-** A Polyurethane with a Rustic weathered leather resembling the sleeve of a well worn bomber jacket.

## EMBRACE™ RECYCLED LEATHER

The recycled leather used in **embrace™** offers the look, feel, and volume of traditional leather –but without the price – **embrace™** represents a new category of furniture fabric. In aesthetic terms, this recycled leather fabric offers consumers similar colors, depth, luster, dimensional grain, and hand-rubbed layered tones as traditional leathers. The unique composite construction process delivers outstanding hand and touch along with care-free, high-performance reliability – year after year

## GENUINE LEATHER

A hide of genuine leather is nature's product and caution must be exercised in cutting one. Leather should always be cut face up. The diagram shows various areas of a hide and they are cut as follows:

**Section A** should be used in cutting seat tops, inside backs, cushions bands and other sections that will receive the most strain and usage of flexing. Section A is the prime portion of a hide.

**Section B** should be used for outside arms, backs, hidden bands or any other parts of the seat that receive little or no flexing. The **flank sections** must be used on outside backs and non wearing surfaces in order to avoid trouble. As with wood, these individual characteristics and marks have been accumulated gradually during years of natural growth and form a pattern unique to each piece of hide. They are not weakening defects and will not shorten the life of the leather. You may notice one or more of the marks described below. The ability to identify and recognize them will enhance your enjoyment and appreciation of this unique item of upholstery

### How to Care for Leather

No upholstery material is easier to care for than modern leather. Dust it, wipe it occasionally with warm water and mild soap. No polish, no wax, no saddle soap. The natural oils are sealed in - buffing with a soft cloth is all the polishing it needs.

### HOW TO ORDER LEATHER

Leather is sold by the hide on a square foot basis. Whole hides run about 48-52 sq. ft. Equivalent of leather yardage to fabric yardage are shown below:

#### Square Feet in Leather (54") Fabric

17 square feet - 1 yard	34 square feet - 2 yards
51 square feet - 3 yards	68 square feet - 4 yards
85 square feet - 5 yards	102 square feet-6 yards
119 square feet-7 yards	136 square feet-8 yards
153 square feet-9 yards	170 square feet-10 yards

Leather may also be treated for FAA for additional charge. Please call for pricing.

**BUTTON MOLDS WITH NYLON HOOK BACKS**

These backs are primarily used with pre-tied twine loops to give a uniform tufting depth and faster application. The solid one-piece Hook-Back assures maximum strength and the smooth edges of the hook cannot fray twine. Loops slip easily into the special locking feature of this hook.

These are available in #30 only, in 1 & 5 gross boxes.

**ORDER 30 Nylon Molds.....**

**PRONG BACK BUTTON MOLDS (CLINCH)**

The Prong Back can be used in the same die as any other Back types. Tufting with Prongs is fast and easy, requiring no special skills. The Prongs are secured by simply bending them 90 degrees after insertion. These molds are complete with soft shells and rust resistant; available in stock sizes and packed in 1 & 5 gross boxes.

**THE GF LINE FOR TENAX FASTENERS AND TOOLS TOLL FREE 1-800-237-6677**

**SNAP LOCKING FASTENERS (TENAX)**

The Tenax fastener is a self-locking fastener which cannot come undone once engaged on it's peg unless subjected to extreme force. A quick release is accomplished simply by pinching the head of the button. All components are non-rust, made from non-ferrous materials which are nickel-plated. Nut #302 is designed to accommodate various thickness of canvas or other materials. Tenax fasteners have been used for car soft-tops and Tonneau covers, loose covers, car carpets, bags and equipment cases and tents, in fact, wherever a compact and secure fitting is required.
